## FMD Simulations

## 06 -- 20 -- 2022

The following assumptions were made in the scenario work.

1. There are no imports for the entire period of simulation.

## Optimistic Scenario:

- $\bullet~$  Year 1: 5% decline in domestic demand and exports are banned
- Year2: Domestic demand is back up and exports are banned
- $\bullet\,$  Year 3: Everything goes back to pre FMD

## Pessimistic Scenario:

- Year1: 5% decline in domestic demand and exports are banned
- $\bullet~$  Year 2: 5% decline in domestic demand and exports are banned
- $\bullet~$  Year 3: 5% decline in domestic demand and exports are banned
- Year4: Domestic demand goes back up, exports are still banned
- Year5: Exports are still banned
- Year6: Export band is lifted and everything goes back to pre FMD
